The apathy of the peculation was relieved in the final hour by heavy Washington purchases of stocks said to be inspired by the more favorable outlook for the international treaty. London houses sold moderate amounts of the low-priced shares, but at the same time bought a considerable aggregate amount of speculative bonds. The high grade investment stocks were more conspicuous than for some time past and in many instances scored substantial gains. New York Central, however, developed decided weakness and sold off 1% per cent. on dealings of 2,000 shares. There was no news on the stock and decline was attributed to liquidation of speculative holdings. Long Island stock was traded in at 44, Monday's closing price, but at the close yesterday jumped to 8 bid, 50 asked, on the impression that Mr. Little's report confirms the figures sub-

quiry apparent for speculative issues. The sales were \$1,253,000. The principal advances were: Louisville & Nashville fives and Union Pacific gold sixes, 1½; Union Pacific sinking fund eights, 1; Atchison adjustment fours, 1%, and International & Great Northern seconds, Knoxville & Ohio firsts. Peoria & Eastern firsts, and St. Paul, I. & division firsts, 1 per cent. The Hocking Valley issues continued to display weakness, reflecting the unsatisfactory condition of the bituminious coal industry, the fives declined 1, and sixes 11/2 per cent. Government bonds were neglected, but slightly higher all around. The transactions were \$2,000.

THE THEATER HAT'S KNELL. Mayor Taggart Signs the Much-Dis-

cussed Ordinance. Mayor Taggart yesterday attached his signature to the ordinance prohibiting the in effect in about two weeks. This ordinance has stirred up a good deal of opposition among those women who never wear a large headdress to the theater. but do not want to remove their small bonnets, which are really so insignificant in size as to amount to nothing in the way of obstruction. There are many of this class of people in the city. For a long time it has been the custom among the better class of women here to either remove their hats when they go into a theater or wear a bonnet so small that it did not obstruct the view at all.

ENDEAVORERS AND SALOONS. Will File Affidavits-The Mayor and the Complaints.

Some young men who belong to the good citizenship committee of the Christian Enof punishing the saloon keepers who break the law and incidentally of bringing conhis policemen. For some weeks these young men have been visiting saloons on Sunday and after closing hours at night, merely to see if they could get in. They experienced no trouble in getting in, they say, and they told Mayor Taggart about it. The story about it, however, and the young men they have determined to take a different

One of them, Charles Newlin, was averse to saying much about the matter just at present, and refused to state just what conversation he and the others had had with Mayor Taggart. "Some of us have been engaged in this work in a quiet sort of a way for a number of weeks," he said, "and have accumulated considerable evidence, as any one can do who cares to make the rounds. times, and have received no satisfaction. He does not even make any promises. Now we shall take a different course. We shall get our evidence into shape and shall file affidavits against each of the offending persons. In this way we hope to put an end to the lawbreaking that is going on. Just when and how we shall do this I do not care to say now.' A Journal reporter also went to Mayor

Taggart with the story, and the following conversation ensued: "What do you know about a complaint made to you about thirteen saloons being open after hours?" "Who made the complaint?" "Two young men who had visited them."

"When did they make it. "I don't know; just a few days ago." "You will have to get me some more definite information before I can answer you. "Haven't you had such a complaint?" "I guess you are mistaken. I know of no

May brought 79c at the start and sold at 77% near the close, finally resting at 77%c, a decline of 1%c for the day. Corn declined 1/4c. Oats made a new low record for both January and May, the latter month resting at a %c decline. Provisions declined 5@71/2c. In wheat the marked weakness of the

was accessary to make a decidedly wabbly

start, as traders, disappointed at the effect of the government figures on forthcoming crops, needed but little to start them to unloading. Opening sales for May were made at 78%@79c; compared with yesterday's closing prices of 791/2079% and by 11 o'clock the market had declined to 78c. The government, besides its estimate of the home crop, published a communication from Minister Buchanan, representative in Argentine of the United States, to the effect that Argentine would have 18,000,000 bu wheat for export. Minister Buchanan's letter was dated Dec. 9, and, of course, relates to a condition of affairs which later advices show to have changed very much. The report, nevertheless, had some effect. Chicago and Northwestern receipts were again very light, but that was ascribed to the effect of the extreme cold on transportation facilities. Chicago got 45 carloads, against 134 a year ago.

Minneapolis and Duluth reported receipts | tained. of 127 cars, compared with 268 a week ago and 406 cars the corresponding day of last good lines have been taken on basis of former year. There was a general giving up of the ship by the bulls in the last fifteen minutes and a drop of another cent per bushel in price. May had recovered to 78% and declined to 77%c, with 77%c the last figure. The temporary advance to 78%c was caused by a %d closing recoverey at Liverpool. Corn was slow and weak, influenced by the break in wheat and the expectation of larger receipts to follow the cold weather and the probable reduction of retail freights from the interior. There was considerable

liquidation and a fair amount of short selling. The price was aiready so low, however, that only a 1/3c decline resulted. May opened a shade lower, at 23%@23%c, declined to 23%@23%c and closed at 23%c. Oats established a new low record to-day and that fact was the principal item of news. The feeling was weak from start to finish and closed at the low price of called on him again with a like result. Now | the day. The decline was brought about through sympathy with wheat, although liquidation was going on in a small way. May opened a shade lower, at 17%c. and declined to 17%@17%c, where it closed. Trading in provisions was extremely dull. The sellers were chiefly confined to pack-

ers, and even their offerings were light, so that the pit was half deserted during the greater part of the session. They were sufficient, however, to produce a small general decline. May pork closed about 7½c lower, at \$7.921-07.95. May lard about 5c lower, at \$404.02½, and May ribs about 5c lower, at \$4.05.
